

Stoichiometry

Stoichiometry B.II

Prof. Dr. B. O.

30.05.2015

hence the reaction is exothermic

2, 2, 2-trifluoroethane, C₂F₆

Chemical formula of 2, 2, 2-trifluoroethane is C₂F₆

Structure of 2, 2, 2-trifluoroethane

2, 2, 2-trifluoroethane is a colorless, odorless gas

It is used as a refrigerant and as a propellant

It is also used in the production of fluorinated polymers

2, 2, 2-trifluoroethane is a greenhouse gas

It is a potent greenhouse gas

It is a very strong greenhouse gas

It is a very potent greenhouse gas

It is a very strong greenhouse gas
